ANOTHER ASSIGNMENT.

H. C. Barkley & Co., Shoe Merchants, Forced to the Wall.

The Ledger regrets to announce that misfortune has overtaken Messrs. H. C. Barkley & Co., the enterprising boot and shoe dealers.

They yesterday filed in the Clerk's office a deed of trust, transferring their entire stock and book accounts to Mr. W. W. Ball for the benefit of creditors.

No preferences were given. The assignment of H. C. Barkley & Co. was forced on them through recent private financial losses sustained by Mr. Barkley, and the fact that some years since the firm was largely overstocked with fine footwear that the losses accruing from the latter cause alone has been so great as to seriously cripple and involve them. This combination of causes, together with the generally depressed business conditions prevailing, have brought about this assignment.

The assignment of the firm was followed by an assignment of the individual members thereof, Messrs. H. C. Barkley and W. H. Means.

Mr. Barkley transferred to Mr. Ball his business house on Second street and his family residence on Third street, together with all other realty possessed by him.

Mr. Means made over all his realty, including 2,800 acres of land in Menfess county, Ky., and 400 acres in Adams county, O., as well as all other property owned by him, without claiming any exemptions.

The Trustee is directed to dispose of all the assigned property and make an equal division among the creditors.

These gentlemen are among Maysville's best and most enterprising citizens, and they will have the sympathy of the entire community in their misfortune.

It is sincerely hoped that their embarrassment is only temporary, and that they may soon arise, Phoenix-like, while the trial may seem as bleak as the day of the dark cloud that has so surrounded the business world.

STREETCAR DON'T GO.

Her rosy lips were resolute, Half scornful with derision; She stamped her dainty little foot In token of decision.

"I'll never, never, never wed!" She cried with sweet decision, "A girl might just as well be dead As bound to such alliance!"

No man shall turn my head with 'rush' Or win my hand in marriage Unless, 'she added, with a blush, "He's rich and owns a carriage!"

BATH CIRCUIT COURT. Grinding Out Murderers For the Pen For Life—Other Cases.

The Bath County Circuit Court is in session Owingville, and among other cases that was to be tried at this term was that of Henry Whitaker for the killing of Newt Anderson.

After having been out but a few hours the jury in the case returned a verdict of guilty, and fixed his punishment at confinement in the penitentiary for life.

Anderson was killed June 14th last, about six miles South of Owingville. He was shot on a lone spot of the road near his home. Suspicion fell on Whitaker, and the citizens of the neighborhood became so indignant that he went to Mr. Sterling and surrendered and afterward confessed.

Jim Lewis, colored, was given four years in the penitentiary for burglary, and Matt Hamilton two years for malicious cutting.

There are 242 cases on the docket of this term, and Court is likely to be in session some time.

KENTUCKY'S LOSS.

The Rev. William E. Cave to Locate at Charlotte, N. C.

The church-going people of Maysville who were fortunate enough to hear Rev. William E. Cave of Paducah preach at the Central Presbyterian Church and the M. E. Church, South, Sunday morning and evening, will no doubt learn with regret that he is to leave his old Kentucky home for one in the South—at Charlotte, N. C.

Rev. Cave is one of the most talented and refined young Ministers this state contains, and that the old Commonwealth needs his services every one who is familiar with him and the people know to be a fact.

He was chosen Moderator of the Southern Presbyterian Synod, which met in this city last week, and in our estimation he made one of the most dignified presiding officers that body of godly men ever had.

Rev. Cave has been with the Paducah Presbyterian Church but a few years, and in that time the membership has increased to such an extent that it was found necessary to divide the church, the city now having two Presbyterian Churches—First and Second—originating out of Rev. Cave's Church.

He leaves with the best wishes of not only his congregation, but of the citizens of our city who heard him and who have been acquainted with him, and the people of this state will all say that North Carolina has indeed added a rare gem to her crown.

CRIMINAL PROSECUTIONS.

ENORMOUS INCREASE IN COSTS OF "FAKE" TRIALS.

Money Taken From the Treasury on Claims That Should Never Have Been Allowed at all.

One of the most striking examples of the manner in which the State Treasury has annually been looted for the past score of years is furnished by the records of state showing the immense sums of money which have been drawn out of the State Treasury for what is known as criminal prosecutions. All of these claims are of course presented to the Auditor, and cannot be collected unless the Auditor passes favorably on them.

In many of the towns throughout the state reform organizations have been making war on this pernicious practice. It was discovered that policemen, by trumping up felony charges against men whom they knew were innocent of such an offense, in other words by taking out a warrant for a felony when the facts prior to the arrest established evidence showing that only a misdemeanor had been committed, had collected fees from the state which doubled the state reform organizations have been making war on this pernicious practice.

1891.....330,509 07
1892.....343,049 25
1893.....353,281 08
Total.....\$941,801 80
Average increase per year.....\$12,857 42

Since Auditor Norman's reign began everything on the debit side of the ledger has been increasing. The deficit in the general expenditure fund increasing at the rate of \$23,000 a year; his office expenses increased \$18,000, and now the money paid criminal prosecutions increasing at the rate of \$12,000 per annum. And in this connection some figures in the history of the increases in the deficit in the general expenditure fund might be interesting. The condition of this fund was as follows, in 1886-1887.

1886—Balance credit fund.....\$16,558 14
1887—Balance credit fund.....11,938 59

Since 1890, however, the yearly increase in the deficit is shown by these figures:

1890—Deficit in fund.....\$210,134 80
1891—Deficit in fund.....238,820 71
1892—Deficit in fund.....278,118 88
1893—Deficit in fund.....306,384 33

From this it will be seen that the deficit in the general expenditure fund has been steadily increasing at the rate of about \$25,000 per annum for the last four years, and that the expenses in every branch of the state Government are increasing in the same proportion. This forces the query, How will the taxpayers raise the money to pay the increased tax levy to save the state with four years more of this sort of progressive increase to everything except receipts?

How's This

THE FARMERS.

They Meet in National Congress at Atlanta, Ga.

Resolutions Adopted Favoring Free and Unlimited Coinage

Of gold and silver at the rate of 16 to 1—West & Conference Called of These Nations Favoring Bimetallism with a Ratio to Be Agreed Upon.

ATLANTA, Ga., Oct. 15.—The Farmers National Congress devoted much of its time Monday to national finance, and declared for the free coinage of silver at the ratio of 16 to 1. The committee on resolutions had a dozen propositions, differing very little except in their wording, and there was a long debate, but without leadership on either side.

The committee's report favored free coinage of both metals at the present ratio, guarded by an import duty upon foreign coin. An effort was made to amend the report, but this was overwhelmingly voted down.

Finally the resolutions were acted as separate propositions and both were adopted by large majorities.

Resolved, That we favor the free and unlimited coinage of both silver and gold at the ratio of 16 to 1, to be agreed upon by the nations upon foreign bullion and foreign value and the coinage value of the metal at the date of importation whenever the bullion value of the metal is less than its coin value.

Resolved, That the Farmers National Congress is in favor of the equal use of both gold and silver coin as money and equally standard of value, and to secure this object we favor:

A conference to be called by the United States of those nations ready to accept bimetallism with the unlimited coinage of both gold and silver on a ratio to be agreed upon.

A law requiring that commodities, the price of or imported from foreign countries, be paid in full in foreign gold coin.

A law requiring duties on silver imported from foreign countries and Georgia it is exempted from our mints.

Nashville was selected as the next place of meeting after a great fight for it by Indianapolis and Denver.

THE POISONING HORROR.

It is Now Determined That the Seven Deaths Were Due to Trichinina in a Heavily Cooked Ham.

CINCINNATI, Oct. 15.—It is now determined that seven of the victims of the Sabala, a poisoning horror died, and some are still suffering from the effects of trichinina infection. Dr. E. R. Le Count, of Rush Medical college, has prepared specimens from the portions of the walls of the Sabala, which were used by Prof. Haines for examination and has made a careful diagnosis of the causes which led to the seven deaths of the guests at the wedding feast.

Dr. Le Count's decision is that the cause of the deaths and infection was, he has just learned, a ham, hastily cooked for the wedding supper, caused the suffering and a great number of people believed that it was a case of malicious poisoning.

IMPORTANT DECISION.

Buildings Erected by Religious, Charitable, Educational or Benevolent Societies for the Use of the Poor Shall Not Be Taxed.

SPRINGFIELD, Ill., Oct. 15.—A decision filed Monday by the supreme court was of great interest to all religious, charitable, educational and benevolent societies which have erected business buildings and are depending in whole or in part upon the revenues received from renting stores and office rooms. The court holds that such buildings are not exempt from taxation. The court upon which the decision was rendered was certified to the court by Auditor George, who reversed the action of the supervisors of Peoria county, who had assessed the value of the building.

The Peoria Young Men's Christian association. The auditor's decision was affirmed by the court.

THE FIRE.

The Subterranean Sea of Flame Stirred Up.

Twenty of the Volcanoes in the Aleut Chain Are Now Active.

Rising Smoke and Steam Seen for Miles—At Night the Scene is Sublime—No Where Else on the Globe Can Such a Spectacle Be Witnessed.

SAN FRANCISCO, Oct. 15.—The revenue cutter Commodore Perry has returned from the northern sea, where she has been confronted each night for weeks by a gigantic line of fire. As Capt. Smith expresses it, "The devil's stokers have been stirring up the subterranean sea of flames that is supposed to lie thousands of feet under the Behring's bed and as a consequence fully twenty of the forty volcanoes in the Aleut chain are now active."

The line of islands lying between the Behring sea and the Pacific ocean belong to the United States and others are probably the only active volcanoes lying within American territory. Much has been written of Bogoslov island, which has been throwing up a cloud of steam at times for years, but it was supposed that all the volcanoes on this singular line of islands were extinct craters only.

Now as far as the eye can reach from any point in the Behring sea adjoining or even at a distance from the famous seal islands, the rising smoke and steam can be seen in both directions. The eruption is general and so very lively that at night the sky columns take on the reflections of the fires deep in the char beneath the craters. Nowhere else on the globe can such a sight be witnessed. In the day time only white smoke or steam is visible. As dusk comes and darkness follows the wonderful growth. The light columns show up in the cold island night and as it gets darker other vivid curls of smoke are to be seen at greater distance. Sometimes over the position of the observer is adjacent a dozen or fifteen of these modern pillars of fire are in sight.

The show of subterranean forces is the most noteworthy ever observed on American soil. As proof of the mighty power that is at work beneath the island's neck of land has been forced up out of the sea between Bogoslov and Old Bogoslov, and the two islands are one. The queer looking land. One of the passes is shown on the chart as connecting Behring sea with the greater ocean to the south.

The volcanoes are of the same origin, black and smooth in surface as if once melted.

The Durrant Murder Trial.

SAN FRANCISCO, Oct. 15.—The defense in the Durrant case will close Tuesday morning. There is no doubt, however, that the medical students seriously injured his case by going on the witness stand. He told so many improbable and, at times, contradictory stories that he made the public mind a ready receptacle for the most sensational denunciations.

ST. LOUIS, Oct. 15.—The Mississippi river is at its lowest point here in the memory of the oldest inhabitant and the boatsmen are particularly anxious.
